&
(Belief In The Angles)**

(The Belief In The Kutub)

-
- Kutub is the plural of Kitab which means Maktoob (written).(The legal) meaning that is intended in this chapter:
- { The Book which Allaah has sent down unto His Messengers as Mercy and Guidance to mankind so that they may utilize to achieve their happiness in this life and thereafter.}

The Belief in the Books Includes Four Matters:

First:

To believe that the decent of the Books is truly from Allaah.

Second:

- To believe in the books whose names we know, each according to its name, like Al-Qura'an which was sent down unto Mohammed, At-Tawarat which was revealed to Musa, the Injeel which was brought down to 'Eessaa and Az-Zaboor which was given to Dawood. As to those Books which we don't know their names, we believe in them on the whole.

Third:

- To attest their authentic information like news told in the Qura'an and (or) in the old Scriptures as long as they are not altered or changed.

Fourth:

- Acting upon its un-brogated statutes , accepting and submitting to them wheather we realize the wisdom behind them or we don't . All of the old Scriptures are abrogated by the Great Qura'an. Allaah تعالى said:
- (المائدة، 48) (و أنزلنا إليك الكتاب بالحق مصدقا لما بين يديه من الكتاب و مهيمنا عليه)
- And We have sent down to you the Book in truth confirming the scripture that came before it and Muhymian (trustworthy in highness and witness) over it (old Scriptures). (Qura'an 5:48)

Abrogation (Naskh) in the Quran

- This issue is very important. For, the enemies of the Quran try to deceive the Muslims who are not aware of naskh (abrogation) and want to steal their belief.
- For instance, they say,
- “In verse 240 of the chapter of al-Baqara of the Quran which you believe in, the women whose husbands died are ordered to wait for one year before marrying again but they are ordered to wait for 4 months and 10 days in verse 234 of the same chapter. Which one is true? It is impossible to apply both orders at the same time; then, these verses are contradictory.”

The Belief in Al-Kutub Yields Great Benefits, Including

(Belief In The Angles)

- The angles are creation from the world of Al-Ghayb [42 who worship Allah and possess nothing from the Divine Qualities of Ruboobiyyah and Ulooohiyyah](#). Allaah created them from light and granted them the complete submission to His commands and ability to execute it.
- Allaah تعالى said :
- (الأنبياء ، 19-20) (و من عنده لا يستكبرون عن عبادته و لا يستحسرون * يسبحون بالليل و النهار لا يفترون)
- And those who are near Him (i.e the angles) are not too proud to worship Him , nor are they weary (of His worship). (Qura'an 21:19-20)
- They are great in number , none can enumerate them except Allaah تعالى . It is confirmed from the *hadeeth* of Anas in his narration if the story of *Al-Mi'raaj* [43 that the prophet Mohammed said:](#)
- “... I was shown Al-Bait Al-Ma'mour.[44 I asked Jibreel about it](#) he said: ‘ this is *Al-Bait Al-Ma'moor* where seventy thousand angles perform *salat* daily. When they leave, they never return to it. (But always a fresh batch comes into it daily.)[44](#)
- [42](#) Al-Ghayb : Realities and domains beyond human perception.{TN}
- [43](#) Which describes the ascent of the prophet Mohammed to the Heaven. See for example Saheeh Al-Bukharee,V.1, Hadeeth #345 , and V.5 , Hadeeth #277.{TN}
- [44](#) Al-Bait (the House) Al-Ma'mour(Inhabited) : in the seventh heaven parable to Ka'aba in Makkah , continuously visited by the angles .Ibn Katheer said: “ It is the Ka'aba for the inhabitant of the seventh heaven.” See Tafseer Ibn Katheer (Qura'an 52:4) and As-Silasilah Al-Saheeha by Shayaikh Nassir udeen Al-Albaani , V1,#477 {TN}
- [44](#) Saheeh Al-Bukharee V.4, Hadeeth # 455-457

The Belief in The Angels Comprises Four Matters:

- First : The Belief in their existence.
- Second: To believe in those whose names are known to us, like Jibreel, and to generally believe in those whose Names we don not know.
- Third: The belief in what we know from their attributes, like that of Jibreel whom the prophet Moahmmed saw in his genuine shape in which he was created, having six hundred wings, and covering the hole horizon.[45](#)
- [45](#) See Saheeh al-Bukharee , V.4 , Hadeeth #455-457
