

HUZAIFA SHAHBAZ

FINAL YEAR COMPUTER ENGINEERING STUDENT

03015606731 | RAWALPINDI. PK | HUZAIFASHAHBAZ767@GMAIL.COM,
[HTTPS://STUFFDUDE67.WIXSITE.COM/ENVIROSENSEHQ](https://stuffdude67.wixsite.com/enviroseensehq)

Objective

Motivated final year Computer Engineering student specializing in embedded systems development. Seeking an entry-level role where I can leverage my experience in firmware development and circuit design to create efficient and reliable embedded solution.

Skills & abilities

Programming Languages, Web Development, Database Management, Software and Hardware Tools, Embedded Systems, Operating Systems, Mobile App Development, Communication skills, Python, SQL.

Experience

RISTECH CEME NUST, RAWALPINDI

Intern | May 2024 – August 2024

- Gained two months experience with hardware and software tools for embedded systems (ESP32), 8051 microcontroller, STM32 microcontroller, and LoRa/Lora WAN technologies for Internet of Things applications.

Education

HITEC UNIVERSITY

Taxila, PK | BS in Computer Engineering- 2021-Present

Earned a 2.85 GPA and completed relevant coursework in web development, database management, and software engineering.

APSACS EME COLLEGE, Rawalpindi

2018-2021

Matic and Intermediate

In top 10% of class for consecutive four years.

Undergraduate Projects

- Traffic control signals (hardware-based)
- FM Transmission Long Range (Hardware based)
- Rain detector alarm system, (hardware-based)
- Hangman game (C++ language), Samsung phone third angle projection (AutoCAD)
- Banking Management System (C++ language), Speech Recognition (python)
- 4-bit multiprocessor (Verilog)
- Online Library Management System (MySQL, HTML, CSS, PHP)
- Financial Institution System Network Design (Cisco Packet Tracer)
- Grocery management system (MS Visio, Figma)
- Temperature and humidity sensor (Arduino)
- Paging algorithm (C/C++, Ubuntu OS), traffic control system (Xilinx Vivado)
- Prayer alarm app (Java, XML)
- Lung segmentation chest X-rays (Python, MATLAB)
- Automatic Vehicle Speed Controller System (Arduino, Proteus)
- Risetech (HSE HAZARD) AI FOR MEDICAL DIAGNOSIS Network Coding for Wireless Applications :A review
- IOT-Based AQI Meter System for Real-Time Data Analysis and Decision Making.
- AIR QUALITY INDEX METER SYSTEM.
