15	Project Presentations	• Project Presentations
16	Project Presentations	• Project Presentations
17	Guest Speaker Session : Ethics across international boundaries	
18	Final Semester Exam	

Ethics vs Morality

- ▶ The terms ethics and morality are used interchangeably
- ▶ Morality and ethics loosely have to do with distinguishing the difference between “good and bad” or “right and wrong
- ▶ Many believe morality is personal whereas ethics is the standards of “good and bad” distinguished by a certain community or social setting
- ▶ The distinction between the two is as substantial as a line drawn in the sand

Morality

- ▶ Principles governing right and wrong and good and bad behavior
- ▶ The degree to which something is right or wrong, good, or bad, and so on
- ▶ A system of moral principles followed by a particular group of people

Ethics

- ▶ Moral principles that govern a person's behavior or the conducting of an activity
- ▶ The branch of knowledge that deals with moral principles

TECHNICAL SUPPORT

HOW TO BUY

PA

Partners must conduct their operations in an environmentally responsible business manner and in strict compliance with applicable environmental laws and standards.

(4) Government customers

Partners must comply with all applicable bidding or procurement laws when conducting business with governments, public institutions, state-owned enterprises, governmental departments, quasi governmental bodies or local authorities where such bidding or procurement regulations apply.

(5) Anti-bribery

Partners shall not directly or indirectly offer, promise to offer, make or receive any form of bribe to or from government officials, political parties, or commercial-sector (non-public sector) parties, in order to win or retain business or seek to influence a business decision inappropriately. This shall include offering or providing any gift or hospitality which is excessive or inappropriate in nature for the purpose of obtaining any improper advantage or illicit benefit.

(6) Unfair competition

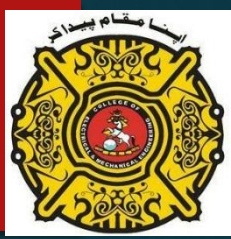

Partners shall not monopolize the market or engage in any unfair competition practices individually or in collusion with others. Typical examples of this conduct include but are not limited to practices that damage the rights and interests of end users: (i) dividing markets through agreement or collusion; (ii) fixing resale prices; (iii) coordinating in competing bids; (iv) requiring purchase of tie-in products; and (v) abusing a dominant position in the market.

(7) Cyber security

Partners shall strictly abide by all applicable laws and regulations regarding cyber security, data protection and money laundering of the countries/provinces/states in which they operate and shall not infringe the freedom of communication and privacy of end users.

Ethics and its Subdivisions

- ▶ **Meta ethics**
- ▶ **Descriptive ethics**
- ▶ **Normative ethics**
- ▶ **Applied ethics**

Meta Ethics

- ▶ Deals with the origin of ethical principles that govern the specification of right and wrong behavior
- ▶ A major issue of debate is whether ethical principles are eternal truths or created by humans

Descriptive Ethics

- ▶ Actual beliefs, customs, principles, and practices of people and cultures
- ▶ Sociologists in particular pay special attention to the concrete moral practices of social groups around the world, and they view them as cultural facts much like facts about what people in those countries eat or how they dress

Normative Ethics

- ▶ Concerned with arriving at a set of moral conduct rules against which behaviors are judged
- ▶ Murder is wrong
- ▶ Giving to charity is good, but not ethically mandatory

Applied Ethics

- ▶ Primarily deals with the study of ethically controversial issues such as imposition of death penalty and cloning
- ▶ Applied ethics can be classified further into a large number of categories such as bioethics, computer ethics, and medical ethics

Morality and Law

- ▶ The two are quite closely related, and some people even equate the two practices
- ▶ Lying is usually immoral, there is no general law against it
- ▶ College newspapers publish advertisements by vendors who offer “assignment assistance”
- ▶ It is impractical to have laws against bad intentions, these intentions are still bad, still morally wrong

Law vs. Morality: Don't Confuse the Two

Legal & Moral	Legal & Immoral
Illegal & Moral	Illegal & Immoral

Examples of the Categories

Legal & Moral	Designing a system to be safe.
Legal & Immoral	Owning a slave pre-civil war in the US.
Illegal & Moral	Parking in a no parking zone, to come to the aid of an injured person
Illegal & Immoral	Killing an innocent person.

Morality and Etiquette

- ▶ Etiquette concerns determines what is polite behavior rather than what is right behavior in a deeper sense
- ▶ It represents society's decision as to how we are to dress, greet one another etc.
- ▶ It can be immoral to disregard or defy etiquette

The Ethical Dilemmas

- ▶ **Q1.** My boss gave me credit for a project on which a colleague did most of the work. Should I accept the praise?
- ▶ **Q2.** Faizan works in the claims department of a major hospital. Paperwork on a recent admission shows that a traumatic mugging caused the patient to require an adjustment in the medication she is prescribed to control anxiety and mood swings. Faizan is struck by the patient's unusual last name and upon checking her employment information realizes she is one of his daughter's grade school teachers.
- ▶ Faizan's daughter seems very happy in her school and he cannot violate patient confidentiality by informing the school of a teacher's mental illness but he is not comfortable with a potentially unstable person in a position of influence and supervision over his eight year old daughter.
- ▶ **What should Faizan do?**

THANK YOU.....
