

Fortinet NSE-Style MCQs (Advanced)

Q1. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q2. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q3. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q4. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q5. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q6. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q7. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control

- c Static Routing
- d VPN

Q8. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q9. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q10. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q11. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q12. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q13. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q14. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing

d VPN

Q15. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q16. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q17. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q18. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q19. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q20. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q21. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q22. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q23. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q24. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q25. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q26. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q27. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q28. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q29. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q30. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q31. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q32. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q33. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q34. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q35. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q36. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q37. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q38. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q39. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q40. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q41. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q42. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q43. Which FortiGate feature provides application-layer inspection?

- a NAT

- b Application Control
- c Static Routing
- d VPN

Q44. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q45. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q46. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q47. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q48. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q49. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q50. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control

- c Static Routing
- d VPN

Q51. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q52. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q53. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q54. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q55. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q56. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q57. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing

d VPN

Q58. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q59. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN

Q60. Which FortiGate feature provides application-layer inspection?

- a NAT
- b Application Control
- c Static Routing
- d VPN
